SAP BusinessObjects Upgrade Services

Fixed-Price Upgrades by Experienced Professionals

Protiviti's SAP BusinessObjects (BOBJ) Upgrades are part of a complete list of SAP BusinessObjects Services that include System Health Checks and Assessments, Administration and Security, and Managed Support. We provide everything you need to make sure your SAP BusinessObjects environment performs optimally so you can focus on providing your users with the data and content they desire without the concerns of system availably and performance.

With Protiviti SAP BusinessObjects Upgrades, you can rest assured that you are working with some of the most experienced SAP BusinessObjects professionals in the world. Whether you run a single production server or a large clustered environment supporting tens of thousands of users, our team and best practices will ensure a smooth upgrade.

Starting at just

$20K

Every upgrade includes:

INSTALLATION
Protiviti will download the necessary software, help generate new license keys, validate the current state and sizing information provided, and install the software and license keys on all servers.

CONFIGURATION
Our SAP BusinessObjects experts will configure your environment to optimize performance and ensure stability. We will establish AD/LDAP authentication, SSL, monitoring and auditing.

MIGRATION
Using best practices, we will develop a migration plan specific to your environment, migrate content, users, security, etc., and provide post-migration testing.

GO-LIVE SUPPORT
Finally, we will provide a migration document, knowledge transfer for your BI staff, and one day of production- cutover support.
